

Arlex Gole

Senior product designer focused on AI products, developer tools, and experimentation.

MongoDB

Senior Product Designer - Atlas Growth

Aug 2021 - Present

Designed growth and activation experiences for MongoDB Atlas, a developer cloud platform used by millions of developers.

Led experimentation across onboarding, cluster creation, and performance diagnosis workflows, improving activation and retention.

Partnered with product, engineering, and data to identify growth opportunities and run experimentation across complex workflows.

Ahero

Founder - Product, Design, & Engineering

Jan 2024 - Present

Built a productivity app that blocks distracting websites and apps so users can stay focused on their goals and complete deep work.

Implemented an AI feature that turns a user's goal description into a structured plan with milestones and actionable tasks using LLMs.

Scaled to 10,000+ signups and ~1,000 MAU, validating user demand through sustained usage and early revenue.

Deloitte InsightStudio

Product Designer

Sep 2019 - Aug 2021

Designed data-intensive dashboards and visualization systems for Fortune 100 companies and U.S. government agencies.

TalkMeUp

Product Designer

Nov 2018 - May 2019

Sole designer at an AI communication coaching startup; designed the core user flow for recording a presentation and receiving structured AI feedback across delivery, pacing, and persuasion

Amazon

UX Design Intern

May 2018 - Aug 2018

Led the redesign of the customization experience for Amazon Custom, helping customers personalize products within Amazon Marketplace.
